RE: Black Bear Campground, Town of Warwick

Manju,

We are planning to have someone go there next week, but the time has not been set yet. We will let you know. The site is rather large, not sure what their total flow is.

Hi Ed, we can have an inspector join you in the field. Please let me know when. Have you received any sewage plans? I think DOH would review the plans for the subsurface systems until the 10,000 gpd cumulative flow amount was reached. DEC would review plans for the outfalls after that threshold was triggered. However, it seems all of this needs to be addressed in an NOV and potential enforcement action.

Manju

>>> "Sims, Ed" <ESims@orangecountygov.com> 5/30/13 10:56 AM >>>

Hi Manju,

Have you had a chance to review this matter yet? Just following up. We will reach out to Mike Sandor to see if he has any up to date sewage plans.

Manju,

Perhaps you would like to come to our office for a meeting, then a field visit could be performed? The Town of Warwick Bldg. Inspector is also interested and you may want to meet with him also. We have already issued an operating permit for the "Temporary Residence" for 2013, but there are aspects of the site that do not meet our Code definitions and the Building Inspector is having similar problems. The sewage system(s) are the primary concern right now. We could also reach out to Mike Sandor to see if he has more recent sewage plans since it seems like he may have been the engineer involved most recently. Let me know if you would like us to contact Mr. Sandor.

Subject: RE: Black Bear Campground, Town of Warwick

Hi Ed, we have a plan approval letter from September 1980. The letter is attached. Other than that, we don't have any other plan approval. It appears this plan approval was for two outfalls, 3 and 4. It appears 1 and 2 already existed. The SPDES permit issued in July 1980 was for these 4 outfalls. Attached is the SPDES application/Engineering Report for these 4 outfalls. We also have the plans consisting of 2 sheets.

Over the years, it seems they replaced and/or added new outfalls without any plan approval. In December 2007, DEC received an application for a permit modification. The outfalls and flows for outfalls 1 - 4 are completely different than the original 1980 SPDES application. Attached is the SPDES application/Engineering Report for the current outfalls.

Please let me know how you would like to proceed.

Manju

>>> "Sims, Ed" <ESims@orangecountygov.com> 5/14/13 2:02 PM >>> Hi Manju,

We still have questions, we were waiting for your return. We don't have the approved sewage plans, hopefully you do. If so, would you be able to have a copy sent to us? We need to confirm that they have capacity for their current usage. We have met with the Town of Warwick and neither of us seem to have records of the approved sewage systems or treatment plant. There weren't signs of failure on site, but they have expanded over the years without approvals from either our office or the Town of Warwick. If you do not have plans, we may want to meet at the site to determine how to proceed further.

Hi Ed, did you need anything further on this campground or were all your questions answered?

Manju

>>> Adedayo Adewole 4/30/13 3:34 PM >>>

Please find attached a copy of the SPDES permit.

Dayo

>>> Shohreh Karimipour 4/30/2013 3:13 PM >>> Ed,

- -Dayo can send you a copy of the permit.
- -I didn't see a set of new plans in the files and it does not show in our database.
- -We can arrange for a joint inspection if necessary.

It would be great if this could wait for Manjuj's return. She may have more information on the plant expansion and she would be the one to arrange for site visit, unless there is an urgent matter that need to be attended immediately. Thank you.

Shohreh

>>> "Sims, Ed" <ESims@orangecountygov.com> 4/30/2013 9:10 AM >>>
Thank you. Could we get a copy of the SPDES by email? If you're able to come up with any plan approvals that would help also. This is a fairly large operation that has grown over many years of operation, it may be worthwhile for Dayo or someone from your office to visit along with someone from our office and the Town of Warwick.

Hi Ed,

Manju is out for a couple of weeks. I did a quick check on the permit of the referenced facility. Our records indicate submission of an application in Nov. 2007 and permit issuance in 2008, valid until March 2018. If you have any questions on the details of the permit, Dayo Adewole should be able to help in Manju's absence.

I hope this helps. Thank you.

Hi Shohreh,

Our office has been involved with regulating the on-site water supply at Black Bear Campground for many years. It is located just south of the Village of Florida. We also have some partial records of rather old sewage disposal approvals, but this facility has apparently expanded over the years and we cannot locate evidence of recent sewage approvals or SPDES permits. We would appreciate any assistance that your office could provide. We met with the Town of Warwick Bldg. Inspector's office this morning and they are also short on any records of the needed approvals. It seems that enforcement actions may be necessary unless your office has records of up to date approvals for their sewage.

If you need more information, please email or call.

Thanks.

RE: YOUR APPLICATION FOR PERMIT TO DISCHARGE UNDER NEW YORK STATE STATE POLLUTANT DISCHARGE ELIMINATION SYSTEM APPLICATION # NY-0144983 BLACK BEAR CAMP GROUNDS VARVICK (T), ORANGE COUNTY

Dear Mesors Smith & Seekamp:

Enclosed for your review and comments (if any) is a copy of the draft SPDES discharge permit this Department intends to issue to you for the discharge of 8310 gallons per day of treated senitary wastes into groundwaters of the State from four (A) wastewater disposel systems at the applicant's facility located on Wheeler Road, Warwick (T). Two (2) septic systems are existing and two (2) are proposed to serve an administration building and pionic area.

The draft permit contains effluent limitations and monitoring requirements which you will be required to comply with.

A notice of your application will be published in the Department's biweekly publication called the "Environmental Notice Bulletin" and the public or other interested parties will be afforded an apportunity to write comments and/or request that a public hearing be held.

If you have any questions regarding this permit, contact me in this office at (914) 761-6660 prior to July 14, 1980 as we expect to issue the final permit on or after that date.

Very truly yours,

Black Bear Campgrounds

PROJECT DESCRIPTION:

The applicant is proposing to construct an administration building and provide sanitary facilities for a picnic area in an existing campground. The administration building is to be served by a septic system while two septic systems presently serve the existing campground. The project is located on Wheeler Road, Warwick (T).

The application is complete for purposes of commencing review. (If necessary, additional information may be requested from the applicant at a future date to process the application.)

A copy of the application(s) may be reviewed by the public at (XX) this office or (). Written comments on this project and the draft environmental impact statement (if required) may be submitted to this office until July 14, 1980

This project has been classified major. Accordingly, a decision will be made within 90 days. If it is necessary to conduct a public hearing on this application, the applicant will be notified of that decision within 60 days of this notice and the hearing will commence within 90 days of this notice. If a hearing is held, a final decision will be made within 60 days after the hearing record is complete.

It has been determined that pursuant to the State Environmental Quality Review Act (SEQR):

- (1) This project is not subject to SEQR because it is exempt, excluded, or listed as Type II.
- (2) This project is unlisted; no other agencies are involved so DEC is automatically the lead agency. DEC has deemed that:
 - () It may have a significant effect on the environment.
 - () It will not have a significant effect on the environment.
- (3) [xx] This project is unlisted; other agencies may be involved but the optional coordinated procedures for designating lead agency and determining significance will not be followed. DEC has determined that the project will not have a significant effect on the environment.

STATE OF NEW YORK DEPARTMENT OF ENVIRONMENTAL CONSERVATION

NOTICE OF APPLICATION FOR PERMIT TO DISCHARGE UNDER PROVISIONS OF NEW YORK STATE POLLUTANT DISCHARGE ELIMINATION SYSTEM

Application No. NY- 0144983 Black Bear Campgrounds

Notice is hereby given that, pursuant to Titles 7 and 8 of Article 17 of the Environmental Conservation Law of New York State for the administration of and the issuance of permits under said Law,

Howard Smith & John Seekamp Wheeler Road Florida, New York

has filed a permit application with the New York State Department of Environmental Conservation at 202 Mamaroneck Ave., White Plains, NY 10601 where the application and related documents are available for public inspection. The applicant is proposing to construct an administration building and provide sanitary facilities for a picnic area in an existing campground. The administration building is to be served by a septic system while two septic systems presently serve the existing camparound. The project is located on Wheeler Road, Warwick (T). This project is unlisted; other agencies may be involved but the optional coordinated procedures for designating lead agency * The New York State Department of Environmental Conservation tentatively intends to issue a State Pollutant Discharge Elimination System (SPDES) permit for the subject discharge(s). A final issuance will follow: (1) review of the application to assure compliance with all applicable provisions of Article 17 of the Environmental Conservation Law of New York State; (2) development of special conditions setting forth specific effluent limitations and other controls applicable to the discharge(s) described above, including schedules of compliance; (3) development of monitoring and reporting requirements for the applicant performance; (4) consideration of all written comments from persons who qualify as described below, as interested parties on this notice of application.

Any person interested in this application who wishes to comment thereon or become an interested party in any proceeding regarding this application must notify the undersigned in writing stating specific areas of interest on or before

All such written comments will be retained by the Department and considered in the formulation of the final determination. Any such interested party will be eligible to be heard if a public hearing is ultimately held in connection with this application.

Further information may be obtained from the office of Region 3 at 202 Mamaroneck Avenue. White Plains, New York 10601, telephone number (914) 761-6660.

Peter M. Doshna, P.E. Senior Sanitary Engineer Region #3

* and determining significance will not be followed. DEC has determined that the project will not have a significant effect on the environment.

March 10, 1980

N.Y.S. D.E.C. WHITE PLAINS OFFICE

Mr Peter Doshna White Plains Regional Office New York State Department of Environmental Conservation 202 Mamaroneck Avenue White Plains, New York 10001

Re: Black Bear Camp Ground Florida, New York

Dear Mr Doshna,

We enclose herewith:

- I. Application for SPDES permit for captioned project.
- Xerox copy of part USGS map in area of project. (From Warwick Quadrangle)
- 3. Check in the amount of Fifty Dollars (\$50.00) made out to the N.Y. S.D.E.C.
- 4. Site plan of captioned project locating the outfalls numbered in the application.

The following is a brief summary of pertinent facts regarding the project and the reason for seeking a SPDES permit:

Black Bear Campground, a campground for persons in recreational trailers and motor homes has been in operation for a number of years. The existing sanitary facilities conform to the Orange County Department of Health requirements. Recently, when the owners wished to construct some additional facilities, the planning board of the Town of Warwick required the owner to prepare an overall master plan for the entire property. We prepared this plan which is embodied in the drawings herewith submitted. The planning board withheld formal approval pending approval of the new sanitary facilities shown on the plan by the Department of Health. The Department of Health determined that purview of the project lay with NYSDEC, not with the Department of Health.

ARCHITECTS · ENGINEERS

COPLEY . STRAUSS

(914) 626 0689

Black Bear Camp Ground has 74 approved camp sites; no increase in the number of sites is contemplated, hence no increase in the population of the facility is projected. The Town has stipulated that the facilities of the camp may be used only by those registered in the camp; no general public will be admitted. The camp ground is not open during the cold weather season.

In the development of the master plan, two additional buildings are planned which when and if built will require sanitary facilities. They are:

- I. An administration/ store building.
- 2. Toilet rooms for a picnic area in a secluded part of the site.

Each of these would have two toilets for females and a toilet and urinal for males, as well as lavatories for each space. Regardless of wheather or not these facilities are constructed, the aggregate sewage flow would not increase since the population is limited.

The existing sanitary facilities at outfalls numberedlisand 2 on the enclosed application and shown on the site plan have been in existance long before acquisition by the present owner. Outfalls numbered 3 and 4 are projected for future developement and may or may not be constructed.

Outfall No.	Service	Total Rated Flow	System
l	4 campsites	400 gpd	750 Gal Septic Tank 150 ft. of leach tile
2	70 Campsites	7000 gpd _	20,000 gal Septic Tank Unknown amount of leaching tile
3	Store/admin. building	800 gpd	Not yet designed
4	Toilet for picnic area	IIO gpd	Not yet designed

The soil type at outfalls numbered I-3 is run-of-bank gravel with traces of clay covered by approximately one foot of top soil. Soil type at proposed outfall No 4 is clay/loam with poor percolation, covered with approximately one foot of topsoil. Average overburden above shale at outfall No 4 is 3'6". If DEC permits, it is proposed to install a filled area for a leach field at this location.

The one story home, a small Cottage, shown on the drawings is not part of the camp. It is rented year round to a provate individual.

Percolation testsand test pits have been dug at the locations of outfalls 3 and 4, but systems have not yet been designed. These will be forth-coming shortly.

In the meantime, we hope this information is what you require for reviewing the application.

Sincerely,

Jerome L. Strauss

202 Mamaroneck Avenue White Plains, New York 10601

Jerome L. Strauss, P.E. Dugway Road Accord, New York 12404

RE: BLACK BEAR CAMP GROUND FLORIDA. NEW YORK

Dear Mr. Strauss:

This is to advise you that the plans for the collection and subsurface systems for the above referenced project are being approved by this department.

By initiating the construction of the said project covered by the approval of the plans, the applicant accepts and agrees to abide by and conform with the following:

- (1) This approval is issued pursuant to SPDES Permit No. NY-0144983
- (2) That this approval letter shall be maintained on file by the applicant
- (3) That any and all construction undertaken the terms of the approval of plans shall be completely and wholly at the risk of the applicant.
- (4) That the facilities shall be fully constructed and completed in compliance with plans as approved on September 10, 1980.
- (5) That the office is to be notified when construction commences.
- (6) That the engineer will forward the results of the leakage tests of the completed work to this department.
- (7) That the professional engineer supervising such construction shall certify to this Department in writing and to the applicant that the constructed facilities have been under his supervision and that the works have been fully completed in accordance with the engineering report and the plans.

Jerome L. Strauss, P.E. Page 2

It is noted that all requirements of SEQR have been met.

Enclosed please find one copy of the approved plans and the engineering report.

One copy of the approved plans is also being sent to the Orange County Health Department since that department is responsible for the water plan approval.

Very truly yours.

Re: DEC ID # 3-3354-00662/00001 BLACK BEAR CAMPROUND

Dear Applicant Agent:

Please be advised that your application for a DEC permit(s) is complete and a technical review has commenced. Notice and the opportunity for public comment is required for this application. Enclosed is a Notice of Complete Application for your project. Please have the Notice published in the newspaper identified below once during the week of 02/04/2008 on any day Monday through Friday.

TIMES HERALD-RECORD 40 MULBERRY ST PO BOX 2046 MIDDLETOWN, NY 10940

On the Notice of Complete Application, that information presented between the horizontal lines, on the enclosed page(s) should be published. Do not print this letter or the information contained below the second horizontal line. Please request the newspaper publisher to provide you with a Proof of Publication for the Notice. Upon receipt of the Proof of Publication promptly forward it to this office. You must provide the Proof of Publication before a final decision can be rendered on your application. You are responsible for paying the cost of publishing the Notice in the newspaper.

Notification of this complete application is also being provided by this Department in the NYSDEC Environmental Notice Bulletin.

This notification does not signify approval of your application for permit. Additional information may be requested from you at a future date, if deemed necessary to reach a decision on your application. Your project is classified major under the Uniform Procedures Act. Accordingly, a decision is due within 90 days of the date of this notice unless a public hearing is held, which may extend this time frame. If a public hearing is necessary, you will be notified.

If you have any questions please contact me at the above address or phone number above.

Sincerely,

TERESA DIEHSNER

Division of Environmental Permits

THIS IS NOT A PERMIT

New York State Department of Environmental Conservation **Notice of Complete Application**

Date: 01/22/2008

Applicant: HOWARD SMITH

Facility: BLACK BEAR CAMPROUND

197 WHEELER RD WARWICK, NY

Application ID: 3-3354-00662/00001

Permits(s) Applied for: 1 - Article 17 Titles 7 & 8 P/C/I SPDES- Groundwater Discharge

Project is located: in WARWICK in ORANGE COUNTY

Project Description:

M-0144983 The New York State Department of Environmental Conservation (DEC) has received an application to renew/reissue State Pollutant Discharge Elimination Systems (SPDES) Permit #NY 04-4983 for the Black Bear Campground, located at 197 Wheeler Road, Warwick, New York, in Orange County. DEC has made a tentative determination to renew/reissue this permit and set a standard ten year term. This permit involves the subsurface discharge of 16,000 gallons per day of treated sanitary waste. Name of nearest surface water: unnamed tributary to Quaker Creek.

DEC seeks comments on the proposed regulated activity prior to making a final decision on permit issuance.

Availability of Application Documents:

Filed application documents, and Department draft permits where applicable, are available for inspection during normal business hours at the address of the contact person. To ensure timely service at the time of inspection, it is recommended that an appointment be made with the contact person.

State Environmental Quality Review (SEQR) Determination

Project is an Unlisted Action and will not have a significant impact on the environment. A Negative Declaration is on file. A coordinated review was not performed.

SEQR Lead Agency None Designated

State Historic Preservation Act (SHPA) Determination

Cultural resource lists and map have been checked. No registered, eligible or inventoried archaeological sites or historic structures were identified at the project location. No further review in accordance with SHPA is required.

Availability For Public Comment

Comments on this project must be submitted in writing to the Contact Person no later than 03/07/2008 or 30 days after the publication date of this notice, whichever is later.

Contact Person TERESA DIEHSNER NYSDEC 625 BROADWAY ALBANY, NY 12233 (518) 402-9167

Location: 197 Wheeler Rd, Warwick, NY

J. Rudolphi R3

Alexander B. Grannis Commissioner

County: Orange DEC #: 3-3354-00662 SPDES #: NY 014 4983

Dear Permittee:

Enclosed is the State Pollutant Discharge Elimination System (SPDES) discharge permit for Black Bear Campground located in Orange County, New York. It authorizes the subsurface discharge of 16,000 gallons per day of treated sanitary waste through a septic tank with trench system. The permit term will begin April 1, 2008 and expire on March 31, 2018.

<u>Please read it carefully and note the conditions that are included.</u> The permit is valid for only that activity expressly authorized. Work beyond the scope of the permit may be considered a violation of law and be subject to appropriate enforcement action. Granting of this permit does not relieve the permittee of the responsibility of obtaining any other permission, consent or approval from any other federal, state, or local government which may be required.

As the holder of a SPDES permit, you are responsible for requesting a renewal of the permit at least six months prior to the expiration of the permit term. Applications for renewal are reviewed at the Department's Headquarters office located in Albany at the letterhead address. Other transactions regarding your permit, such as application for permit modification, permit transfers to a new owner, owner address changes and name changes, should be directed to the Regional Permit Administrator at the following address:

Margaret Duke, Region 3 Permit Administrator 21 South Putt Corners Road New Paltz, NY 12561 (845) 256-3054

Please refer to the DEC and SPDES numbers when you are corresponding with any DEC office, or when you are applying to renew or modify this permit.

Sincerely,

Teresa Diehsner

NEW YORK STATE DEPARTMENT OF ENVIRONMENTAL CONSERVATION STATE POLLUTANT DISCHARGE ELIMINATION SYSTEM (SPDES) DISCHARGE PERMIT

OTHER CONDITIONS

GENERAL

This permit is issued under the provisions of Article 17 of the Environmental Conservation Law (ECL) and is further subject to the following additional conditions:

- THAT the permit shall be maintained on file by the permittee.
- 2. THAT the permit is revocable or subject to modification or change pursuant to Article 17 of the ECL.
- 3. THAT issuance of this permit by the department and the receipt thereof by the applicant does not supersede, revoke or rescind an order of modification thereof on consent or determination by the Commissioner issued heretofore by the department or any of the terms, conditions or requirements contained in such order or modification thereof.
- 4. THAT all discharges authorized by this permit shall be consistent with the provisions, terms, requirements and conditions of this permit.
- 5. THAT facility expansions, production increases or process modification by the permittee which result in new or increased discharges or pollutants into the waters of the state shall be reported by the permittee by submission of a new SPDES application.
- 6. THAT the discharge of any pollutant not identified and authorized by this permit or the discharge of any pollutant more frequently than or at a level in access of that permitted by this permit shall constitute a violation of the terms of the permit.
- 7. THAT this permit may be modified, suspended or revoked where the department finds:
 - a. A violation of any terms of the permit;
 - b. That the permit was obtained by misrepresentation or failure to disclose fully all relevant facts, or;
 - c. A change in conditions or the existence of a condition which requires either a temporary or permanent reduction or elimination of the authorized discharge.
- 8. THAT the facilities shall not receive or be committed to receive wastes beyond their design capacity as to volume and character of wastes treated, nor shall the facilities be changed or modified or otherwise altered as to type, degree or capacity of treatment provided, disposal of treated effluent, or treatment and disposal of separated scum, liquids, solids or combinations thereof resulting from the treatment process without prior written approval of the designated field office.
- 9. THAT the facilities shall be continuously operated and maintained to the satisfaction of the Commissioner and to comply with the Environmental Conservation Law and all applicable laws, ordinances, codes, rules and regulations.

STATE POLLUTANT DISCHARGE ELIMINATION SYSTEM (SPDES) Notice of Permit Continuation

DATE : 94/05/17

BLACK BEAR CAMP GROUND INC SPDES 014 4983 ORANGE Co. DEC # not available expiration date : 85/08/01

HOWARD SMITH (BLACK BEAR CAMPG PO BOX 82

FLORIDA, NY 10921

Dear Permittee:

You currently hold a SPDES permit authorizing you to discharge wastewaters to either surface or groundwaters of New York State. Our records show that your permit expired on the date indicated above. The Department will not process <u>renewal</u> applications authorizing discharges of small quantities of sanitary sewage in the foreseeable future. Consequently, the purpose of this notice is to <u>continue your existing permit for an indefinite period</u> or until the Department notifies you of another course of action.

As a reminder, your responsibilities remain as follows:

- Operate in accord with all of the conditions of your existing permit.
- Continue to abide with all laws, regulations and standards governing your discharge.
- Pay, or follow prescribed procedures for challenging, the Regulatory Fee bill you will receive each year.
- Notify the Regional Permit Administrator, at the address below, of any change in mailing address. You must also file a <u>Reguest for Permit Transfer</u> form if you wish to transfer the permit to a new owner.
- Apply for a modification of your permit if you plan to change the quantity or characteristics
 of the discharge beyond that currently authorized.

Inquiries concerning your permit or requests to obtain forms for transferring or modifying your permit should be directed to the Regional Permit Administrator (or County Health Department in some instances) at the following address:

NYSDEC REGION 3 21 S PUTT CORNERS RD NEW PALTZ , NY 12561-1696

Phone (914) 255-5453

Please attach this page to your current permit.

Sincerely,

George A. Danskin

Chief Permit Administrator

George A. Dansku

NEW YORK STATE DEPARTMENT OF ENVIRONMENTAL CONSERVATION 202 Mamaroneck Avenue, White Plains, New York 10601

Re: SPDES PERMIT - Black Bear Camp Ground, Inc.
(T) Warwick
Orange County

Dear Sir:

Enclosed for your use is an executed State Pollutant Discharge Elimination System (SPDES) Permit for the above project. Please read the entire permit so that you are aware of the various conditions contained in it.

The following items are of special interest:

- These are the effluent conditions that your disposal system will be required to meet.
- Monitoring, Recording and Reporting
 Your attention is directed to the offices to which reports are to be submitted.

If you have any questions, please call the writer or your local County Health Department.

Very truly yours,

Peter M. Doshna, P.E. Senior Sanitary Engineer

PMD:mbw Enclosure -
